Trail Bar Height 30 

NOROCK  MADE IN CHINA

See Table Top & Base Fit Guide Pg.100
The Trail self-stabilizing table base exemplifies modern simplicity. The linear, clean design and concealed components complement a robust construction for use in any setting. Zinc plated powder coated steel.

Say goodbye to wobbly tables!
NOROCK's award-winning bases use a simple mechanical system with four pivoting legs that are interconnected in such a way that they must reach an average weight loading on all four feet. When a table is placed on an uneven surface the feet will move until all four feet reach a state of equilibrium or more simply, a state of stability.
