

Diamond-Coated Nylon Bristle Grid Scrubber

Big Green Egg's Nylon Bristle Grid Scrubbers feature heavy duty, diamond-coated nylon bristles that easily – and safely – clean even the messiest cooking grids.

One secret to great grilling is starting with a clean cooking grid. For excellent results, use the Diamond-Coated Nylon Bristle Grid Scrubber.

If you use a traditional metal brush to clean your cooking grids, the metal bristles can possibly come loose and stick on the cooking grid. Diamond-coated nylon bristles are safe and durable, and ensure that no metal bristles will ever end up in your food.

- The bristles don't fall out, and won't damage stainless steel or cast iron grids.
- Comfortable, ergonomically-designed handle.
- The long-handle design keeps hands safely away from the heat.
